

JOIN THE HUMAN PEACE SCARE to Scrap Trident

On 9 August, join us for a family-friendly day of mass opposition to Trident replacement. Whether you've knitted or not, come to Aldermaston and be part of this inspiring action!

Make it BIG so the politicians take notice. Trident costs us £3 billion every year, up to £100 billion if the government foolishly decides to build more subs and weapons in 2016. Tell them to CUT TRIDENT, not our NHS, education and environmental security.

Make this a summer of peace not war! Resist the war machines. Help us prevent the next military humanitarian disaster. Support international negotiations to ban all nuclear weapons. Together we can put human security first.

Come by train or fill up coaches from across the UK. Bring a picnic, plenty of water, sunscreen and bells to ring. Accessible toilets and localised activities, music etc. will be at 6 'milestones' between Aldermaston and Burghfield.

For more info and local contacts for coaches and milestones, email: campaign@cnduk.org • www.woolagainstaweapons.org www.actionave.org • www.cnduk.org

Aldermaston in Berkshire is the only place in the UK where Nuclear Bombs are manufactured.

() I would like to book a seat on the WMCND coach leaving from Birmingham.

Pick up Points. Please specify.

() City Centre 7.30am 54 Allison St B5 5TH
() Kings Heath 7.45am Kings Heath Library

Tickets £15. Payable to WMCND
Seats guaranteed only with payment.

Saturday 9th August 2014

The Bomb Stops Here:

Join CND and Wool Against Weapons in a beautiful and engaging craft project that will also raise awareness of nuclear weapons. This year on 9th August – the 69th anniversary of the bombing of Nagasaki – we will highlight the on-going development of Britain's Trident nuclear weapons programme at AWE Aldermaston and AWE Burghfield by connecting the bases with seven miles of protest scarf.

Come to the demonstration. You don't have to have knitted anything at all to come along to AWE on 9th August – simply being there will be a fantastic contribution!
